Event Registration - National Association of Academies of Science

Event Registration Complete

Event Information:

Organization: National Association of Academies of Science
Event Name: 2026 NAAS-AJAS Annual Conference Registration

Description:

Congratulations to the 2026 AJAS Fellows!

We are honored to celebrate your success at the 2026 NAAS-AJAS Annual Conference and view your research at the 2026 AJAS Poster Session.

- Thoroughly review the Registration Information Page before registering.
- The email address you enter in this form will be used for sending out Annual Conference information.
- In this registration form, ***AJAS Official Delegates must*** provide:
  - names and email addresses for their adult chaperone
  - names and email addresses for their state or regional science academy director, teacher and/or research mentor
  - abstract title and text.
- Before submitting this registration form, ***AJAS Official Delegates*** must also upload their abstract title and text to AAAS to be featured in their program. **Do not proceed with the registration process until you are prepared to submit your research abstract and title to AAAS.**
- ***Payments must be submitted at the time of registration.*** Please plan accordingly if someone else is paying for your registration.
- State and regional academies of science must have their 2026 NAAS ***membership dues paid prior*** to registering students and adults for the NAAS/AJAS Annual Conference.
- Read carefully through your confirmation email. If you have questions or need to make any changes, contact AJAS administrator Lindsay Thompson at admin@academiesofscience.org .

For 2026, all registrants (delegates, observers, parents, chaperones, etc.) pay $475 which includes AJAS registration ($400) and AAAS registration ($75). Do not register separately for AAAS!
Date(s): 2/11/2026 - 2/14/2026
Location: Phoenix Convention Center, Phoenix, AZ

Attendees

Oh, Alex
Package: AJAS Official Delegate : $475.00 USD

I agree to the 2026 NAAS-AJAS Conference Code of Conduct:	*Yes*
I agree to the 2026 NAAS-AJAS Media Release:	*Yes, a parent or guardian has approved this release (type name below)*
Parent/Guardian Signature:	*Seongshik Oh*
Parent/Guardian Contact Information:	*Seongshik Oh*
Parent/Guardian Cell Phone Number:	*7324294068*
Parent/Guardian Personal email:	*seongshik@gmail.com*
Academy:	*New Jersey Academy of Science*
Are you currently a member of the American Association for the Advancement of Science (AAAS)?:	*No*
Your age on February 11, 2026:	*17*
Gender:	*Man*
Do you identify as a person with an apparent or nonapparent disability?:	*No*
What type of assistance will you need at the conference?:	
Attended the 2025 Annual Conference:	*No*
List Previous Years Attended as AJAS Fellow. Type "none"	*none*

if 2026 is your first time attending.:	
Name of your Junior/Senior High School:	*High Technology High School*
Please list any dietary allergies, restrictions and/or preferences.:	
Race:	*Asian*
Ethnicity:	*Not Hispanic or Latino or Spanish Origin*
Would you be willing to take a leadership role in small group meetings?:	*No thank you*
Abstract Title:	*Topological Quantum Materials for Waste Heat Harvesting*
Research Category:	*Physics*
Abstract:	*Thermoelectric materials can convert thermal energy into electrical energy, making them great candidates for harvesting waste heat. The issue of wasted heat is becoming more prevalent in the modern age, where energy consumption is increasing sharply. This can be seen in, for example, large-scale data centers that release significant amounts of heat. However, thermoelectric materials currently have low efficiency, so this research project aims to find better thermoelectric materials for energy harvesting. Here, we propose that topological quantum materials or TQMs, a family of materials with topological surface states that make their surface highly conducting, have high thermoelectric efficiency. First, we developed an efficient thermoelectric measurement setup using Arduino and LabVIEW that improved the Arduino resolution by over 1000 times. Then, we measured the thermoelectric properties in topologically tunable (Bi1-xInx)2Se3 thin films as topological surface states were gradually added by decreasing the indium concentration (x). From this, we found that the presence of topological surface states significantly increases the thermoelectric power factor, and there is an optimal thickness where the thermoelectric performance is maximized. These findings show that TQMs are promising for waste heat harvesting and shed light on the path toward better thermoelectric materials.*
Is this research a team project?:	*No*
If your research is a team project, list your team members here.:	
AAAS Research Submission Confirmation:	*Yes*
Tour Interests - First Preference:	*Topic: Engineering | Location: ASU Tempe Campus*

Tour Interests - Second Preference:	*Topic: Microelectronics | Location: ASU Tempe Campus*
Tour Interests - Third Preference:	*Topic: Spaceworks | Location: ASU Tempe Campus*
Tour Interests - Fourth Preference:	*Topic: Nanofab | Location: ASU Tempe Campus*
Tour Interests - Fifth Preference:	*Topic: Intersection of design and engineering, STEAM through making | Location: AZ Science Center Maker Space*
Conflict of Interest Statement:	*I currently have no reason to believe that I or my co-author(s) (if applicable) have any financial holdings, funding sources, or affiliations that might raise questions of bias or be perceived to have potentially influenced this poster submission and its*
Conflict of Interest Disclosure:	
AI Policy Statement:	
I agree to the 2026 AI Policy Statement.:	*Yes*
Emergency Contact Name (other than chaperone for students):	*Seongshik Oh*
Emergency Contact Phone number:	*7324294068*
Name of Chaperone:	*Craig Queenan*

Billing Information

Amount: $475.00 USD
Payment Method:
Paid?: Yes

Payment Information

Payment Date: 10/12/2025
Amount: $475.00 USD
Transaction #: 1EA39038GM674042E

Balance: $0.00 USD

PLEASE CHECK YOUR EMAIL FOR A CONFIRMATION MESSAGE AND SAVE THAT MESSAGE

Your registration is complete and we look forward to seeing you in Phoenix, AZ!

You have 3 more tasks to complete!

1. Don't forget to reserve your hotel room (information at the bottom of the page)
2. Download and log into our new to this year Conference App! (The app is not updated for 2026 yet, but can be used as a general guideline.)
   - Apple: *https://apps.apple.com/us/app/naas-ajas-mobile-app/id6683282923*
   - Android: *https://play.google.com/store/apps/details?id=com.viethconsulting.NAASNAASMobile&pli=1*
3. Arrange your travel plans (Arrival information at the bottom of the page)

Your registration is now complete.
Please print this page for your records.
